EXPERIENCE

Senior Full Stack Engineer

December 2025 – Present

Pulsegen.io

Hyderabad, India

- Shipped the **system of record** for backlogs and roadmaps, a **survey builder** with an embeddable widget flow, feedback-intelligence views, and the AI **Copilot**.
- Rebuilt the **search API** to cut response times from 30+ seconds to under one, and updated SoR APIs to take under 5 seconds from 40-50 seconds.
- Built the **notifications engine** end to end - in-app and email, cron-batched digests with subscription handling.
- Developed the frontend connection-and-sync flow in **third-party integrations** with external issue trackers.
- Replaced password login with passwordless **magic links**, and patched an **XSS** vulnerability in rendered content.
- Onboarded and mentored a new full-stack hire through codebase walkthroughs, PR reviews and task breakdowns.
- Tech Stack: React, TypeScript, Zustand, TanStack Query, ShadCN, Node.js, MongoDB

Full Stack Engineer

December 2022 – September 2025

Holidify

Bengaluru, India

- Created a B2B marketplace app with 1200+ concurrent users for travel agents.
- Decreased page load times from **5 to 0.7 seconds** and increased security while migrating the dashboard end-to-end into the new tech stack.
- 1500+ new agents (as of June 2025) onboarded quickly and securely using the new enrollments and retention program.
- Tech Stack: Django, Django REST Framework, React Native, JavaScript, HTML/SASS, PHP

Full Stack Developer Intern

November 2022 – December 2022

Inkers Tech

Bengaluru, India

- Created multiple reusable UI components across the application.
- Migrated old APIs and created new APIs with RTK Query.

Programmer Analyst Intern

January 2022 – June 2022

Cognizant Technology Services

Kolkata, India

- Trained on PL/SQL, JavaScript, Unix shell scripting and analytics tooling; built minor data-migration projects with Informatica PowerCenter.

PROJECTS

Video Uploader | *React, Vite, NodeJS, ExpressJS*

December 2025

- Built a full-stack video upload and streaming system using React + Vite, Node.js, Express, and MongoDB.
- Implemented FFmpeg-based server-side video processing and validation, REST APIs and scalable file upload handling with Multer.
- Implemented **RBAC-based authorization** to restrict actions by user role.
- Frontend deployed on **Vercel**, backend on **Render**, CDN on **Cloudinary**. Link: vuploader.vercel.app

Rore | *NextJS, V0, ShadCN, OpenAI*

December 2024 – March 2025

- Developed an AI agent that customizes employee onboarding plans based on individual information.
- Delivers detailed guidance on setup, training, and knowledge transfer to standardize and enhance the onboarding experience.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL (MySQL, Postgres), NoSQL (MongoDB), HTML/CSS

Frameworks/Libraries: React, React Native, Next.js, Vite, Node.js/Express, Django, Zustand, TanStack Query, ShadCN

Developer Tools: Git, Docker, VS Code, Cursor, PyCharm, DataGrip, PhpStorm

EDUCATION

RCC Institute of Information Technology

Kolkata, India

BTech in Computer Science and Engineering

August 2018 – June 2022

DAV Public School

Kolkata, India

AISSCE

June 2017 – May 2018
